The local airport community has always been extremely generous when donating time and money to worthy causes at our airports and within the surrounding communities. As a result, the Airport Community Golf Classic (ACGC) was founded to assist these local airport and aviation-related associations with fundraising efforts to continue the essential work they provide on our industry's behalf.

The proceeds from the 2nd Annual ACGC will be distributed among our four partner associations: **JFK Air Cargo**

Association, CALMM, Aviation High School Education Foundation, and KAAMCO Cargo. These organizations are proven advocates for airport and aviation education, workforce development, and the advancement of this industry, as well as shining examples of what makes our airports the best in the world.

The ACGC volunteer golf committee comprises airport leaders in various roles, aviation backgrounds, and, most importantly, a passion for our airports.
